DECEMBER 2021 - JANUARY 2022

jscl.kopykitab.com | Worked with the CS/IT Department on LSmart (Libsys Smart) based Library management system.

PROJECTS

My Personal/Portfolio Website — Portfolio-Website

A Website made using Pure **HTML** (for Structure), **CSS (**for Styling) and **JS (**for Behavior). The Portfolio Website gives us the Skills acquired by me, Projects Built using different tools and introduction of me which might add value to your firm.

Student Library — *Database of the books and their management*

Getting inspired from my Internship Programme i tried to make a Library management system myself using **Python programming language**. It gives you the Account ID, Issue Date, Fees included, Fines Charged, Price, Title and ISBN No. of the book issued.

Weather App — *Gives you Weather Updates of given coordinates*

The Weather app gives you the complete Weather forecast of the coordinates entered in it. Built using **tkinter**, **Python** and an Openweather's **API**.
